

OASIS ACOUSTIC POD

The Oasis Acoustic Pod provides a still and intimate environment for busy a workplace, where distraction can hinder creativity and privacy. Incorporating acoustic materials that cushion outside noise and dampen internal noise, Oasis provides a more confidential setting for the user.

Available in various configurations, these acoustic pods can be fitted with sofas, tables and high stools, as well as power & data outlets. Air ventilation and LED Lighting are automated once the door is activated.

Oasis is manufactured from birch plywood and the outer exterior is covered in powder coated sheet steel. The interior walls are lined with acoustic felt and the floor is covered with Interface carpet.

1-PERSON POD

The Oasis 1-Person POD is designed for a single person who may need to meet a deadline or who needs confidentiality on a project they are working on.
